

WE LOVE...
Water

Thank you for downloading the Camp Littles & Me Water Packet. I hope that you and your little one(s) enjoy playing and pretending together this summer.

I have spent many late nights, early mornings and naptimes putting this together and I'm so thrilled to offer it as a free resource to you. If you love it and want to share it with a friend I do ask that you would point them to my website so they can receive their own copy rather than just forwarding them the PDF.

You are more than welcome to print as many copies of the included files as you need for your personal use only. I simply ask that you do not resell or redistribute this PDF in any way.

All photos, designs, content, and writing of Camp Littles & Me are the property of The Littles & Me © 2017. Plagiarism is not welcome and will not be tolerated. Thank you for your cooperation!

Please feel free to reach out if you have any questions. We can't wait to celebrate and play with you all summer long!

WE LOVE

Water

CREATE

Squirt Gun
Painting

IMAGINE

- Let's pretend we live under the water. Let's swim around as fast as we can!
- Let's pretend we are jumping in the pool. Let's make a BIG splash! Ready. Set. JUMP!

GET MOVING

Water Obstacle
Course

HANDS ON

Ice Melt
Objects

BATHTIME

Splish! Splash! It's time for a bath. Grab different sized cups for pouring, scooping, and measuring water. Add a bath color tablet and water balloons for an extra special bathtime surprise. Enjoy splashing around!

MAKE

Splish Splash
Yogurt Popsicles

FAMILY FUN

Fill up some water balloons and get ready for some family water themed fun!

MAKE	Splish Splash Yogurt Popsicles	Vanilla Yogurt Popsicle Molds Blue Sprinkles
FAMILY FUN	Water Balloon Games	Water Balloons (I'll be sharing some game ideas on the blog)

ADDITIONAL INSTRUCTIONS

Water

CREATE

Activity: Squirt Gun Painting

How to make: 1. Attach paper to an easel (or a tree in your backyard). You might want to lay down a tarp for easy cleanup. This is a pretty messy activity!

2. Fill the squirt gun with liquid watercolors (or if you don't have liquid watercolors you can use equal parts of washable paint and water. It's helpful to use a medicine syringe to easily put the paint in the squirt guns.

3. Let your kiddos squirt away! Read, Aim, Paint!

GET MOVING

Activity: Water Obstacle Course

Setup: Using whatever items you have around your house (Ex: Cones, Sprinkler, Water Balloons, Small pool, Slide, etc.) set up an obstacle course in your backyard.

How to Play: Show your kiddo how to go through the obstacle course and then let them run, jump, and climb through the water filled course!

HANDS ON

Activity: Ice Melt Objects

1. Fill different sized containers with water (a little over half way full).

2. Have your child find small toys and objects around the house that they want to freeze in each container.

3. Place the containers in the freezer and allow the water to freeze.

4. Once frozen, remove the containers from the freezer.

5. Use squeeze bottles or pipettes filled with warm water to melt the ice

Talk About It: This is a great activity to talk about why water freezes and how the warm water melts the ice and helps rescue the toys. Before giving your kiddo the warm water, you could allow them to problem solve and see if they can figure out how to get the toys out of the ice block.

MAKE

Special Treat: Splish splash Yogurt Popsicles

Ingredients: Vanilla Yogurt, Popsicle Molds, Blue Sprinkles

How to make:

1. Put the vanilla yogurt and blue sprinkles in the popsicle molds.

2. Place in the freezer & freeze for several hours

3. Once the popsicles are fully frozen, carefully remove the popsicle molds and enjoy!
